# Agenda

- Introduction
- CNCF News
- Prochains Meetup
- Retour sur KubeCon NA 2023
- Présentations
  - ◆ 100% OpenTelemetry par Maxime David (30 min)
  - ◆ Buildpacks : l'autre façon de créer des images de conteneur par Anthony Dahanne (30 min)
  - ◆ Les SBOMs par Olivier Gatimel (30 min)
- Tirage de prix !

# Un grand merci !

- La Plateforme d'Innovation Numérique et Quantique est un organisme à but non lucratif initié par l'Université de Sherbrooke et le ministère de l'Économie, de l'Innovation et de l'Énergie du Québec en 2020.
- Notre plateforme est basée sur des solutions numériques classiques, hybrides et quantiques, est accessible à toutes les entreprises québécoises et à l'ensemble des réseaux académiques universitaires et des centres collégiaux de transfert de la technologie (CCTT).

# Follow Us & Stay Connected!

The screenshot shows the LinkedIn group page for "Cloud Native Canada #CloudNativeCA". The group is listed under "Cloud Native Eastern Canada". It features a blue header with the Kubernetes logo and the text "kubernetes+ cloud native eastern canada meetup". It is identified as an official Meetup group of the Cloud Native Computing Foundation. Below the header, there are icons for sharing, notifications, and more options, followed by the group name and its description.

The screenshot shows the Twitter profile for "CloudNativeCanada" (@CloudNativeCA). The profile picture features a blue hexagon with a white steering wheel and a red maple leaf. The bio reads "kubernetes+ cloud native eastern canada meetup". There is a "Edit profile" button at the bottom right. The header of the profile also displays the same blue hexagon and steering wheel logo.

@CloudNativeCA

The screenshot shows the YouTube channel page for "Kubernetes Canada Community". The channel has 151 subscribers. The profile picture is the same blue hexagon with a white steering wheel and a red maple leaf. The channel name is prominently displayed at the top.

# October 2023: velocity of top 30 CNCF projects

## Gateway API v1.0: GA Release

Tuesday, October 31, 2023

**Authors:** Shane Utt (Kong), Nick Young (Isovalent), Rob Scott (Google)

On behalf of Kubernetes SIG Network, we are pleased to announce the v1.0 release of [Gateway API](#)! This release marks a huge milestone for this project. Several key APIs are graduating to GA (generally available), while other significant features have been added to the Experimental channel.

## Kubernetes Removals, Deprecations, and Major Changes in Kubernetes 1.29

Thursday, November 16, 2023

**Authors:** Carol Valencia, Kristin Martin, Abigail McCarthy, James Quigley, Hosam Kamel

As with every release, Kubernetes v1.29 will introduce feature deprecations and removals. Our continued ability to produce high-quality releases is a testament to our robust development cycle and healthy community. The following are some of the deprecations and removals coming in the Kubernetes 1.29 release.

# Carol

- eBPF:
  - Documentaire
  - Cilium
- Emphase:
  - AI
  - Platform Engineering
  - ArgoCD
- Expérience d'un premier KubeCon.
  - Co-Located events

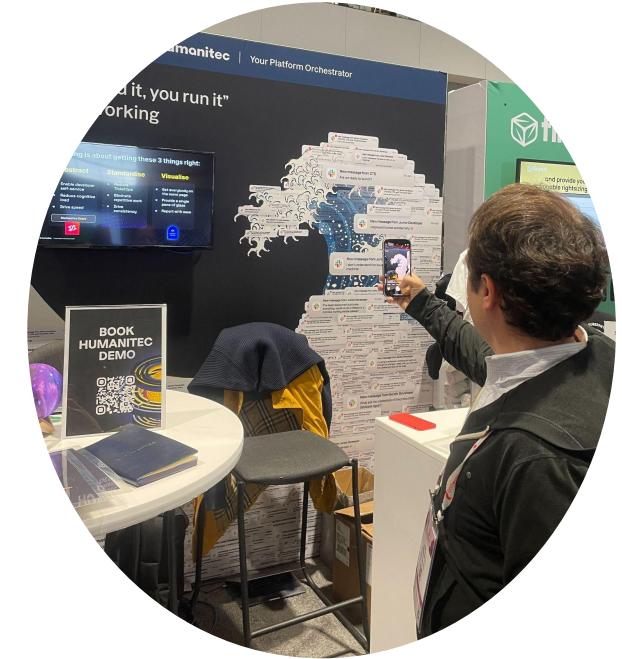

# Prune

- Micro-conference des Rejekts
- Focus principal:
  - GitOps (ArgoCD)
  - Security (Kyverno, OPA)
  - Scaling (Cost) Management (Keda)
  - Réseau / Mesh (Cilium)
- Meilleurs talks:
  - aucun !!
  - plein de bons talks sur <https://www.youtube.com/@cncf/videos>

# Mathieu

- Humanitec's booth
- Lightning talks
- Meeting with people!
- [App Delivery Working Group \(Platform Engineering group\) meetup](#)
  - CNOE
  - Radius
  - Workload Spec like Score and Acorn
- [Eric D. Schabell: KubeCon NA 2023 - Roadmap to Becoming a CNCF Ambassador](#)
