

kubernetes+ cloud native

eastern canada meetup

Québec City - 25 Novembre 2025

Meetup Hosts

Sebastien Thomas (Prune)

Lead Software Eng.

Cloud Native Ambassador (CNA)

Wunderkind

Mathieu Benoit

Solution Engineer

Cloud Native Ambassador (CNA)

Agenda

- **Introduction**
- **CNCF News:** KubeCon NA 2025 à Atlanta
- **Présentations**
 - Bell FibeTV App: Du Jour Zéro à Kubernetes par [Émile Savard](#)
 - Exploration de KubeVirt avec Harvester par [Maxime Roussel](#) et [Kevin Lecouvey](#)
- **Social:** Discussions (fin à 21h !!)

Un grand MERCI !

linktr.ee/cloud.native.ca

Présentez lors de nos Meetups !

- **(Virtuel) Tech Talk**
- **In-Person Meetups**
 - CFP link: <https://sessionize.com/cncf-kubernetes-meetup-quebec-city>
 - Who: Anyone!
 - Focus: cool projects, topics, tools related to CNCF, special guest speakers
 - Durée:
 - 5 à 10 min : lightning talk
 - 20-30 min + Q&A: présentation
 - 45 min + Q&A: masterclass

Prochain Meetup !

- Date : **10 Février 2026**
- Lieu/Sponsor : **UEAT**
- Présentations :
 - **Special Internal Developer Platform**
 - **GitOps + ArgoCD + Kargo Promotions**

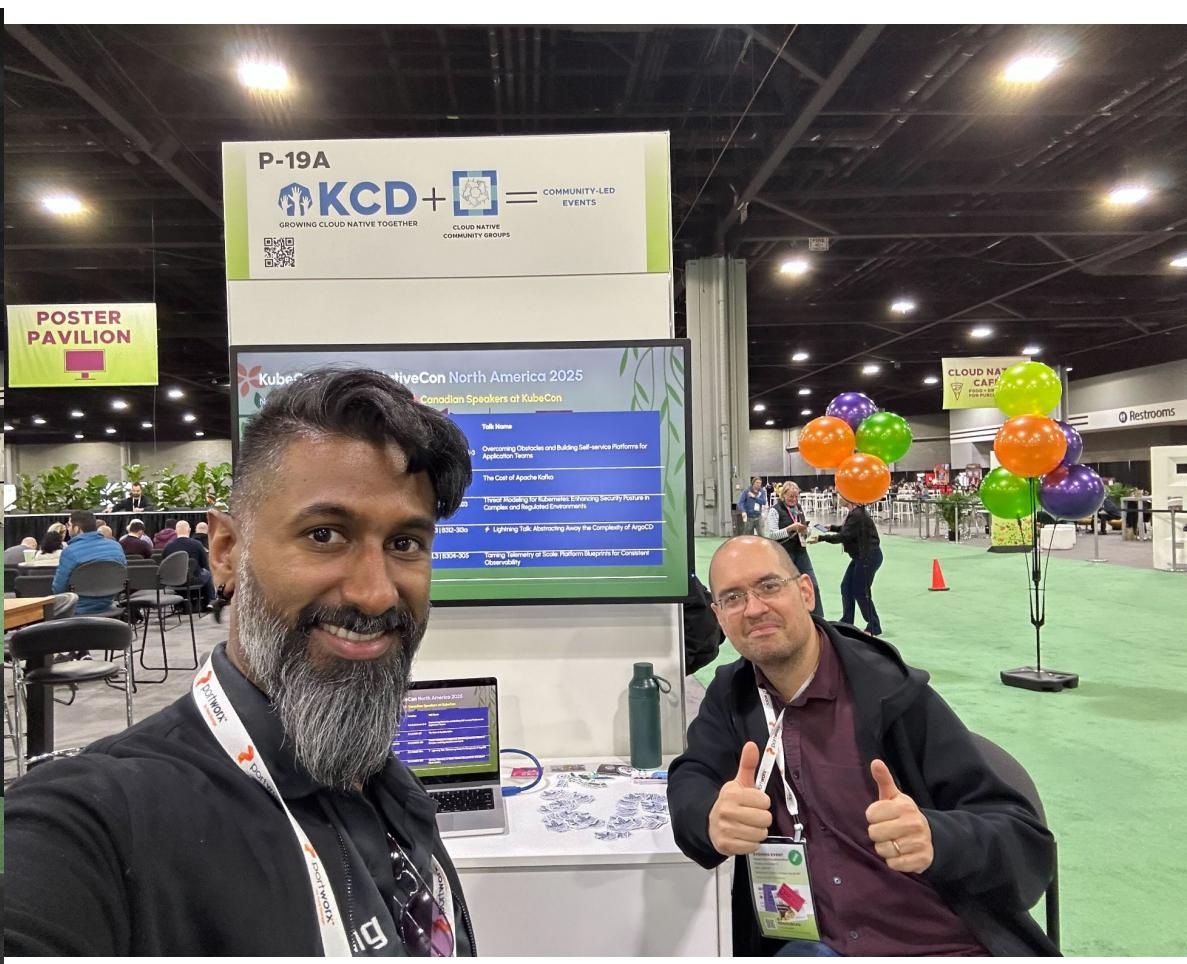

CNCF Events & Projects Updates

CNCF TAGs

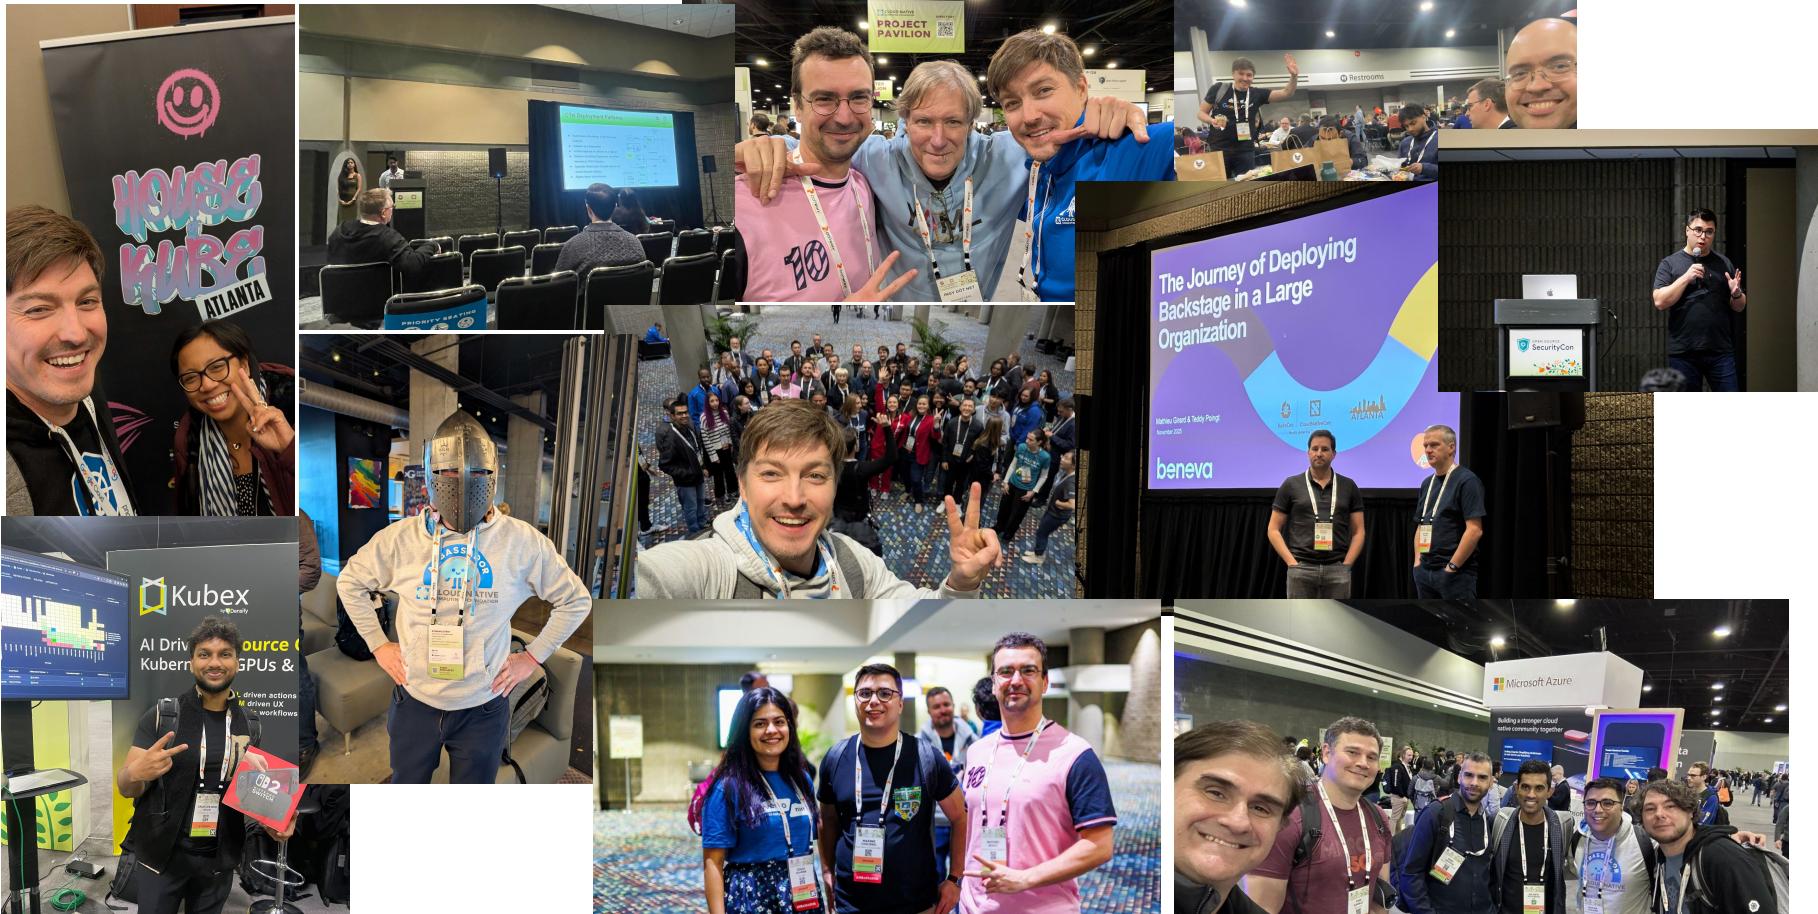

TAG	Mission & Focus Areas
TAG Workloads Foundation	This group focuses on the core components of application execution. Its mission is to advance practices and standards for fundamental cloud native workload execution environments and their lifecycle management. Coverage includes: Containers, Virtual Machines, Serverless, Web Assembly (Wasm), Runtime, Scheduling, Orchestration, and CI/CD.
TAG Operational Resilience	Focusing heavily on “ Day 2 Operations ”—the period after deployment—this TAG defines best practices for building, operating, adopting, and managing resilient and efficient cloud native systems. Core topics include Observability, Management, Troubleshooting, Performance, Cost Efficiency, Energy Efficiency, and Chaos Engineering.
TAG Infrastructure	If it runs underneath your application, this TAG covers it. Their mission is to advance practices related to core cloud native infrastructure . Key focus areas include Data, Storage, Networking (DNS, Load Balancing, Service Mesh), Compute (including specialized primitives like GPUs and TPUs), Infrastructure Management, Edge computing, and Sovereignty.
TAG Security and Compliance	This TAG assists the TOC in ensuring secure, cloud native systems. They focus on security hygiene, Policy-as-code, Auditing, Threat Modeling, and the Secure Software Supply Chain. They also provide guidance on conforming to regulatory frameworks, such as the EU's Cyber Resilience Act.
TAG Developer Experience (DevEx)	This group seeks to improve the end-to-end experience for developers . They focus on making it easier to build, test, deploy, and maintain cloud native applications. Scope includes Databases, Microservices, Streaming, Messaging, AI, API Management, Usability, and inner/outer loop best practices.

KCD Toronto - May 13th 2026

Présentations

Présentation 1 - Back from KubeCon Atlanta

Présentation 1 - Back from KubeCon Atlanta

Canadian Speakers at KubeCon			
NAME & AFFILIATION	TIME (EST)	LOCATION	TALK NAME
Marino Wijay (Kong) & Vaibhave Patel (United)	Mon, 3:20 PM	B L5 Ballroom 2-3	Overcoming Obstacles and Building Self-service Platforms for Application Teams
Jakub Scholz (Red Hat) & Rajith Attappattu (Randoll)	Mon, 3:25 PM	B L2 B211-212	The Cost of Apache Kafka
Maxime Coquerel (RBC)	Mon, 4:20 PM	B L3 B302-303	Threat Modeling for Kubernetes: Enhancing Security Posture in Complex and Regulated Environments
Andre Marcelo-Tanner (Cohere)	Mon, 5:00 PM	B L3 B312-313a	⚡ Lightning Talk: Abstracting Away the Complexity of ArgoCD
Aakansha Priya (Dash0) & Marino Wijay (Kong)	Tue, 11:15 AM	B L3 B304-305	Taming Telemetry at Scale: Platform Blueprints for Consistent Observability

My First KubeCon as a CNCF Ambassador: Atlanta 2025 Highlights

25 November 2025

Divers Kubernetes

This year's KubeCon in Atlanta brought together some of the most vibrant and forward-looking voices in the cloud-native ecosystem. Following an insightful and energetic [Cloud Native Rejeks conference](#) where the community pushed boundaries and shared unfiltered technical expertise, it was time for KubeCon, the global stage where these ideas scale, mature, and inspire real-world change.

Présentation 2

Bell FibeTV App: Du Jour Zéro à Kubernetes

Émile Savard

Présentation 3

Exploration de KubeVirt avec Harvester

Maxime Roussel & Kevin Lecouvey
